Complete the fields with the elements provided, then follow the different steps described in the following pages.

- Insert some photos in the Public Media Library folder

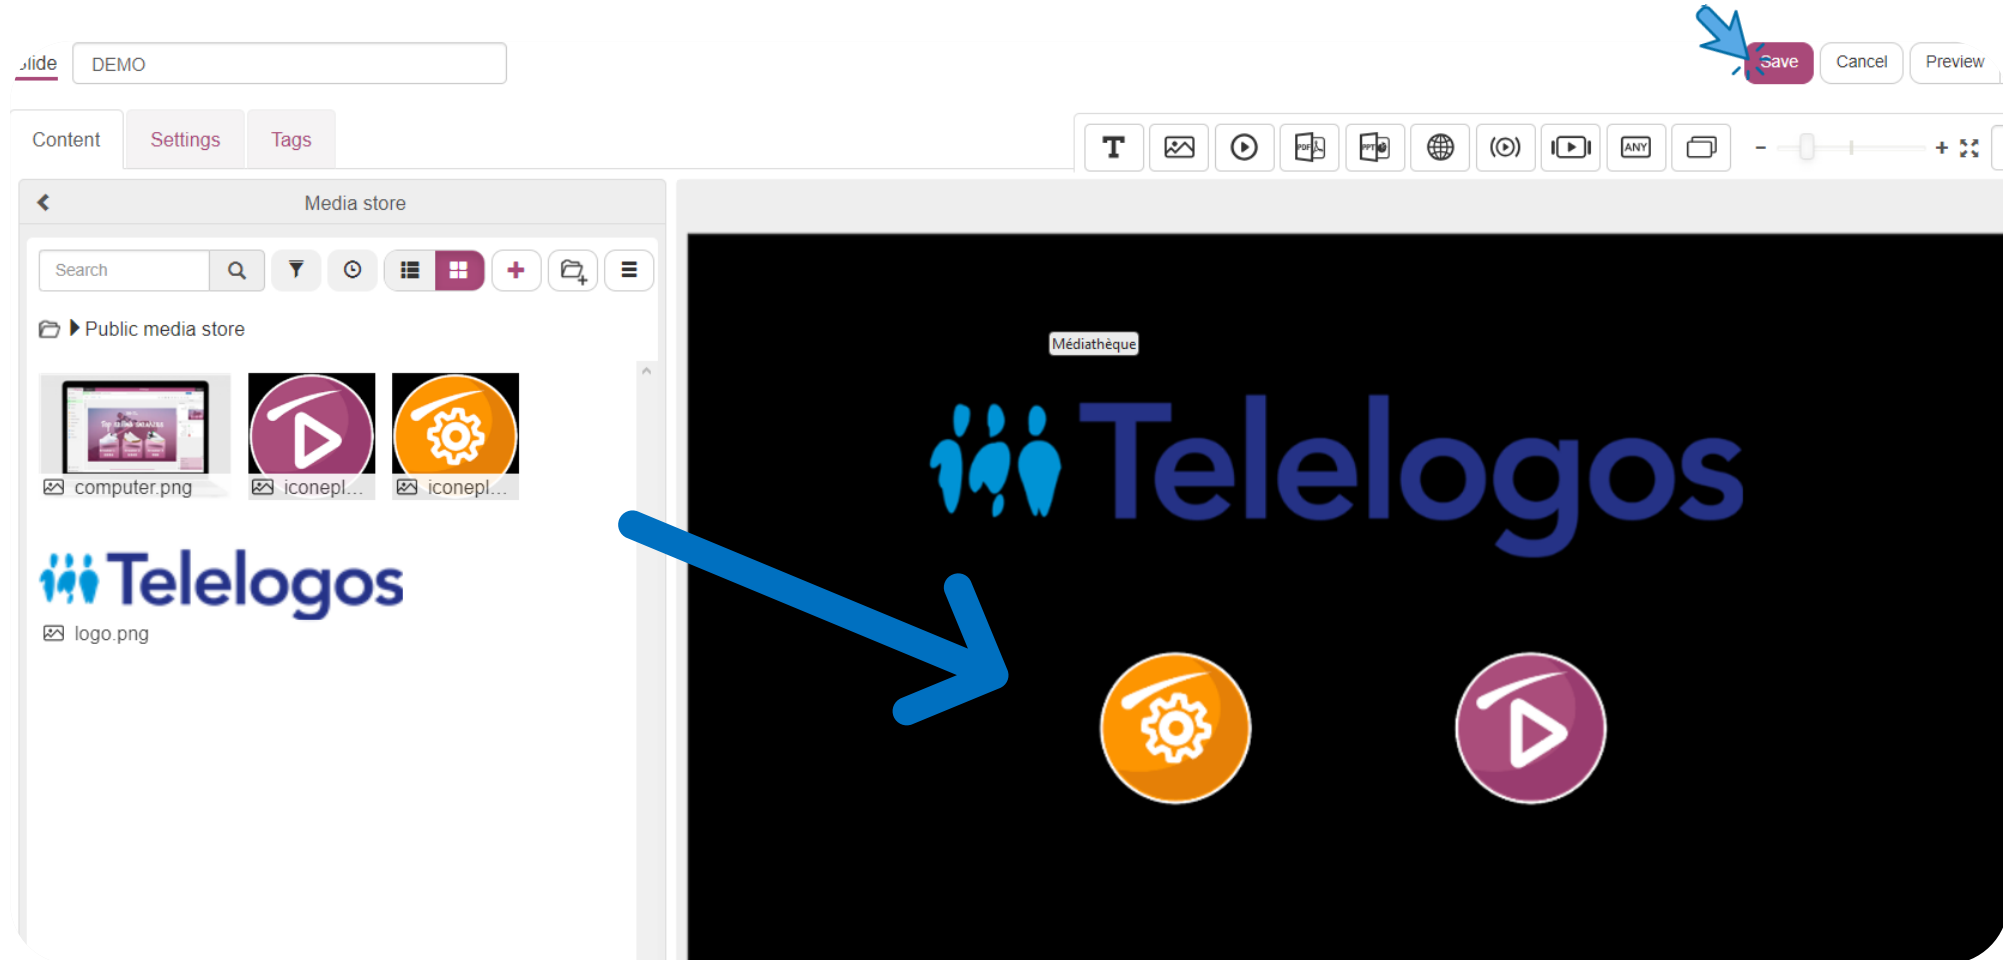

Media store > Public media store

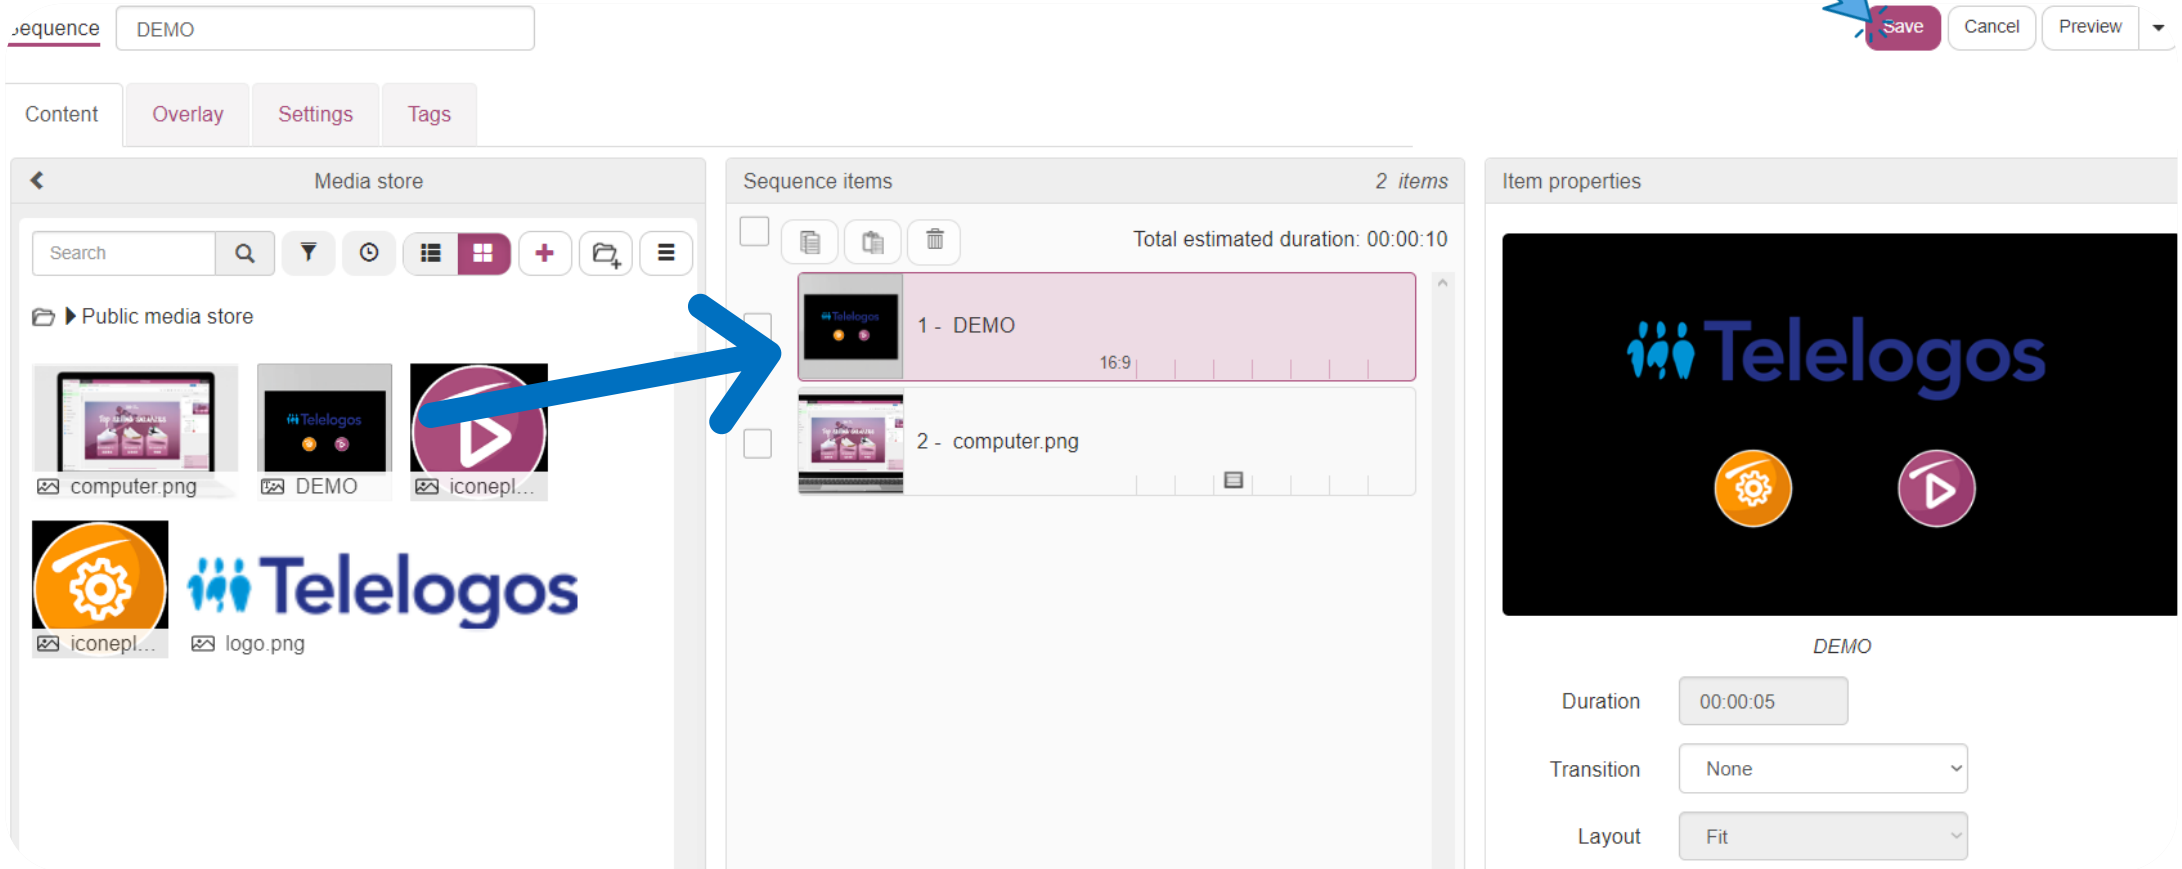

logo.png

- Create a first slide  then drag and drop the media to the desired locations

- Create a Sequence  and then insert the available Media and/or Slides.

The screenshot shows the Telelogos Sequences interface. At the top, there is a search bar containing the text "sequence DEMO". To the right of the search bar are three buttons: "Save" (highlighted with a blue arrow), "Cancel", and "Preview" (with a dropdown arrow). Below the search bar are three tabs: "Content", "Overlay", and "Settings".

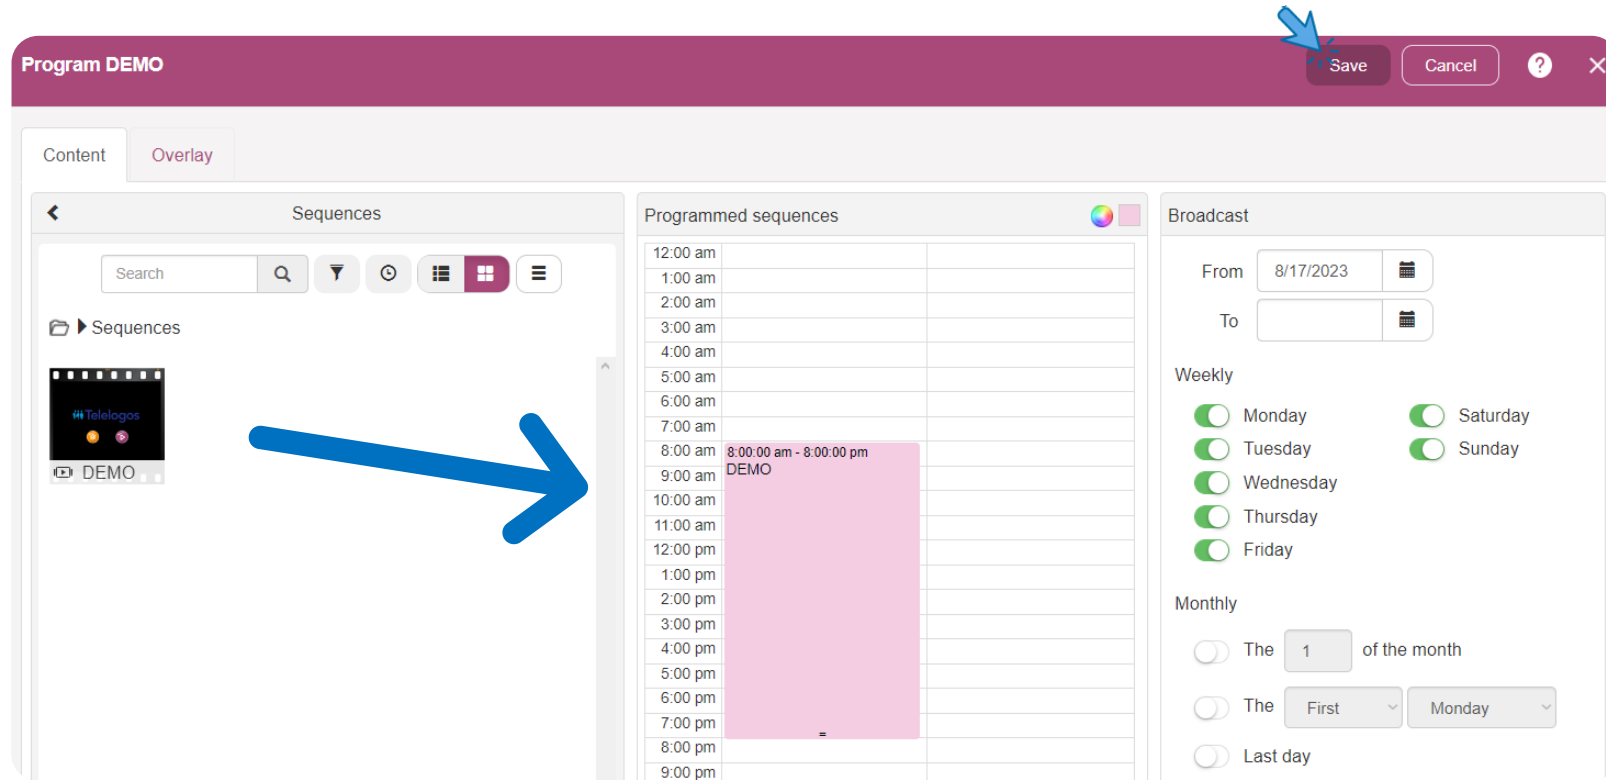

The main interface is divided into three panels:

- Media store:** A panel on the left showing a search bar and a grid of media items. A blue arrow points from the "iconepl..." item to the "Sequence items" panel. The items include "computer.png", "DEMO", "iconepl...", "iconepl...", and "logo.png".
- Sequence items:** A central panel showing a list of items in a sequence. The total estimated duration is "00:00:10". The items are:
  - 1 - DEMO (duration 16:9)
  - 2 - computer.png
- Item properties:** A panel on the right showing the properties for the selected item "DEMO". The properties are:
  - Duration: 00:00:05
  - Transition: None
  - Layout: Fit

- Add the sequence

The screenshot shows the Scheduler interface for a program named "DEMO". The interface is divided into several sections:

- Program DEMO**: The top header bar, containing "Save", "Cancel", and help/close icons. A blue arrow points to the "Save" button.
- Content / Overlay**: A tabbed interface with "Content" selected.
- Sequences**: A panel on the left with a search bar and a list of sequences. A sequence named "DEMO" is visible with a thumbnail showing the Telelogos logo. A large blue arrow points from this sequence to the "Programmed sequences" table.
- Programmed sequences**: A table with a time axis from 12:00 am to 9:00 pm. A pink block representing the "DEMO" sequence is scheduled from 8:00:00 am to 8:00:00 pm.
- Broadcast**: A panel on the right for scheduling, including:
  - From**: 8/17/2023
  - To**: (empty)
  - Weekly**: Radio buttons for Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and Sunday.
  - Monthly**: Radio buttons for "The 1 of the month", "The First of the month", and "Last day".

Everything is ready, you can now proceed to the installation of the player

- Download the Media4Display client: <https://www.telelogos.com/media4display-telechargements/>

- Start the installation on the player (EXE)

- Enter credentials

Player ID:  
- your choice

Organization ID:  
- Consult account opening document

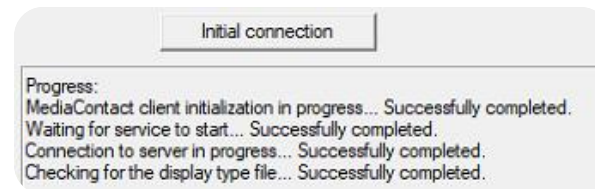

The screenshot shows a configuration window with two main sections. The top section, titled 'Identifiers', contains two text input fields: 'Player identifier' with the value 'Player' and a 'Select from a list' button, and 'Organization identifier' with the value '|DOrganization|'. The bottom section, titled 'Server connection data', contains two text input fields: 'Hostname or IP address' with the value 'www.m4dsaas.fr' and 'Port number' with the value '1300'. To the right of these fields are three radio buttons: 'TCP' (selected), 'HTTP', and 'HTTPS'.

## SERVER INFORMATION:

- In Test:  
eval.media4display.com
- On SAAS contract:  
www.m4dsaas.fr
- On premise:  
<ip> or <server name>

- Start initial connection

- Finally, start synchronizing broadcasts

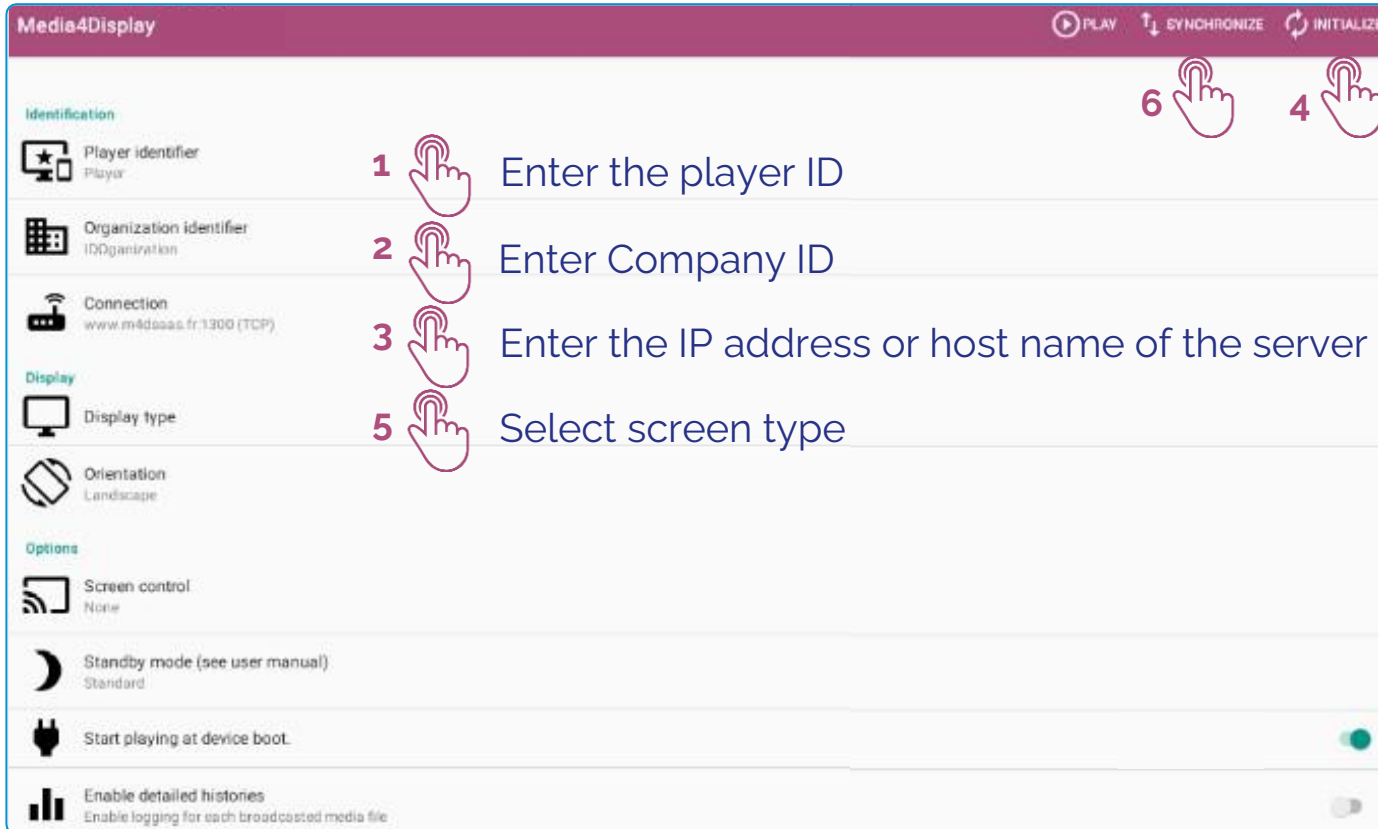

**Your player is now operational!**

# Player Installation : Android

- Download the Media4Display client: <https://www.telelogos.com/media4display-telechargements/>
- Start the installation on the player (APK)

## SERVER INFORMATION:

- In Test:  
eval.media4display.com
- On SAAS contract:  
www.m4dsaas.fr
- On premise :  
<ip> or <server name>

**Your player is now operational!**
