

Channels

PUSH-COMMUNICATION & ALERTS

With Channels, communicate essential or urgent information directly to employees on their computer, without modifying their work habits.

Objectives

Make your employees aware of important issues.

Real-time alert with an unmissable message in the center of the screen.

Improve employee engagement with a genuine internal communication strategy.

Our solutions

Alerts

Send real time or scheduled alerts to users.

Notifications

Send pop up information to workstations and mobiles.

Lock screens

Communicate via lock screens.

Backgrounds

Use wallpapers to display your messages.

Why Channels?

For the
sender

**GUARANTEED
VISIBILITY**

**CUSTOMIZED
TARGETING**

**INSTANT ...
OR SCHEDULED**
